

EDUCATION SEMINAR

The Case for a National Pharmacare System

Do Canadian need a National Pharmacare program to provide prescription drugs? What are the benefits and the costs for a Canada wide Pharmacare system? Will such a plan actually reduce cost and improve access to prescription drugs. What role are unions playing to make a nationally funded drug plan for all Canadians a reality?

This is part of the McMaster Labour Studies certificate course and is a two evening video conference course schedule at the Union Hall in St Catharines.

For More information Contact Melodie Zarlenga, Joe Petriello, or Peter Scott.

Monday
March 19th & 26th
6:30 – 9:30pm
